

Andrew Krassay
Senior Geologist

Profession: Geologist

Education: BSc (Hons), 1989 University of Adelaide
PhD ,1995 Geology/Geophysics, University of Adelaide

**Registrations/
Affiliations:** Society for Sedimentary Geology (SEPM)
Petroleum Exploration Society of Australia
(past President of PESA ACT Branch)

Specialisation: *Petroleum Geology, Basin Analysis, Stratigraphy, Sedimentology*

Expertise:

- Regional geological evaluations
- Basin analysis
- Petroleum systems analysis
- Seismic interpretation
- Sequence stratigraphy
- Well interpretation and integration with biostratigraphy/geochemistry
- Sediment-hosted mineralization and systems (Pb-Zn-Ag, Fe-Mn)
- Cretaceous geology
- Proterozoic geology
- Project scoping, generation and management

Andrew Krassay has over 18 years experience in basin analysis, stratigraphy, sedimentology and the integration of field-outcrop, well, seismic and other geophysical datasets. He has worked on a wide variety of petroleum, mineral exploration and research projects from prospect/mine scale to regional scale. Andrew has experience in basins and terranes in onshore and offshore Australia, North America and Africa.

Employment Record:

2008 – Present **FrOG Tech**, Senior Geologist, Canberra Australia

2002-2007 **Geoscience Australia-Petroleum & Marine Division**, Project Leader, Canberra Australia

1999-2001 **AGSO-Petroleum & Marine Division**, Senior Geologist, Canberra Australia

1995-1998 **AGSO-Minerals Division**, Project Geologist, Canberra Australia

1994 **AGSO**, Professional Officer, Canberra Australia

1990-1993 **University of Adelaide, Department of Geology & Geophysics**, part-time lecturer and tutor, Adelaide Australia

1989-1993 **University of Adelaide**, PhD candidate on scholarship, Adelaide Australia

1989-1991 **BHP Minerals**, part-time consultant stratigrapher-sedimentologist, Adelaide Australia

1987-1988 **WMC**, assistant geologist (vacation employment), Kambalda Australia
