

Michael Ebrahim
Consultant

Profession: Petroleum/Environmental Geologist

Education: B.Sc. Geology, University of Oslo, Norway
M.Sc. Applied Geophysics, University of Oslo, Norway
Ph.D. Environmental Geology, Victoria University of Wellington, NZ

**Registrations/
Affiliations:** Petroleum Exploration Society of Australia

Specialisation: Petroleum exploration and acquisition strategies, Petroleum marketing analyst

Expertise

- Petroleum Geology
 - Sequence Stratigraphy
 - Seismic Interpretation
 - Well Log Analysis
 - Carbonate Systems
- Environmental Geology
 - Coral Reef Environments
 - Sediment Production
 - Anthropogenic pollution and contamination of environments

*Michael has a strong background in both **petroleum geology and environmental geology**. His work on the sediment supply to the North Sea in relation to tectonic uplift and erosion of the Norwegian mainland is well regarded. His environmental geology work on atolls in the Western Central Pacific provided valuable insights into carbonate sedimentation and growth patterns that have provided a baseline for understanding modern and ancient carbonate processes. For the past two years at SRK Consulting, Michael has been key in developing projects in both petroleum and ground water exploration in the Middle East and North Africa.*

Knowledge Areas: North Africa/Middle East, North Sea, South Central Pacific

Employment Record

2004-Present FrOG Tech, Consultant, Canberra Australia
2000-2004 SRK Consulting, Consultant, Canberra Australia
1989-1995 Geology Department Oslo University, Research Assistant, Oslo, Norway
