

Nicola Fry
Project Manager and Geologist

Profession: Project Manager and Geologist

Education: **MEngStud, majoring in Hydrogeology and Groundwater Management:** University of Technology Sydney
BSc (Hons I): Australian National University

**Registrations/
Affiliations:**

Specialisation: Project management, geological research, literature management, and GIS

Expertise:

- *Project Management*
 - *Geological Research*
 - *GIS*
 - *Hydrothermal geochemistry*
-

Nicola Fry completed her Bachelor of Science degree majoring in geochemistry in 2005. First Class Honours were received for her laboratory based fluid inclusion study on the solubility of silver in supercritical brines. Since graduating, she has focused on integrating GIS and regional geology/tectonics and project management. In 2009 she completed her Masters of Engineering Studies, majoring in Hydrogeology and Groundwater Management.

Employment Record:

2005 – Present FrOG Tech, Geologist, Canberra Australia

2004-2006 Research School of Earth Sciences, Research Assistant, Canberra Australia

2003-2005 Japan Oil, Gas and Metals National Corporation (JOGMEC), Research Assistant, Canberra Australia
