  - Data quality management systems
- 

*Usha Morar has over 3 years experience in her field. Starting off in the infrastructural industry has meant that she has had the opportunity to work on a wide variety of projects, ranging from architectural/ infrastructural to environmental and geological. Working in a geological consultancy is giving her an opportunity to fully apply her geoscience studies into her projects. She has a specific interest in using her extensive database query ability to ensure accuracy and speed of processing of attribute data in frog tech projects*

---

**Employment Record:**

**2010 – Present** FrOG Tech, GIS Analyst, Canberra, Australia

**2009 – 2010** ActewAGL Corporation, GIS Analyst, Canberra, Australia

**2007 - 2009** Beca Infrastructure Limited, GIS Analyst, Auckland, New Zealand
